Subject: FOIA Assignment for EPA-R7-2014-003706

You have been assigned to the FOIA request EPA-R7-2014-003706. Additional details for this request are as follows:

- Assigned By: Emily V. Albano
- Request Tracking Number: EPA-R7-2014-003706
- Due Date: 03/18/2014
- Requester: Edward Smith
- Request Track: Simple
- Short Description: N/A
- Long Description: All documents requested were referenced in the EMSI report sent to EPA Region 7 regarding the impact of a smoldering landfill fire contacting radioactive wastes in OU-1 at West Lake Landfill on January 14, 2014.

1) July 3, 2013 EPA R7 letter to PRP's regarding SSE and Rad Waste Study

2) PRP/EMSI Report Proposal to EPA Region 7...(Date unknown).

3) July 30, 2013 EPA R7 letter to PRP's okaying the proposed report.

4) Documents between EPA Region 7 and EPA Office of Superfund Remediation and Technology Innovation related to the West Lake Landfill and/or Bridgeton Landfill (Date unknown).

5) Any additional documents related to the "isolation barrier" that are not currently posted to the EPA Region 7 website. Because MCE and the public are finding out about documents for the first time 6 months after the fact, MCE wants to know what other documents are being used for guidance on the "isolation barrier" that may not yet be posted to EPA Region 7's website but deserve to be public due to the significant amount of interest in the landfill as proven by media coverage and attendance at community led meetings where over 100 people show up regularly.
